Dick Kerr asked me to inform you that we (along with the DO) are currently reviewing a draft paper on Central America, which was sent over by the NSC staff and is intended for public release through the Office for Public Diplomacy at State (Otto Reich's office). Copies were sent to the DCI and the Secretaries of Defense and State to review for accuracy and releasability (declassification). The draft was sent to Dick Kerr because he had dealt with Ollie North at NSC in supplying some overhead photography to be included in the package.

Matthew Freeman in Reich's office is the peg point and I've told him we'll try to respond by Friday morning. He tells me that part of the package was approved here earlier--before it grew to its present proportions.

We'll keep you apprised of developments
